- Adolescent gynecology
- Contraception

## GENERATIONS OB-GYN | YOUR DOCTOR FOR GENERATIONS TO COME

By SHANNON SALINSKY | Photography by PREMIERE PHOTOGRAPHY

**T**he mission of Drs. Wood and Marshall is as straightforward as the name of their practice. They want to be your doctor for generations to come! Because their practice is built on a smaller scale than other ob-gyns in the area, the professional staff has ample time to spend with each patient. They take pride in building trust and creating relationships as well.

### MEET DR. BEVERLY WOOD:

She received her medical degree from the University of Texas Medical Branch in Galveston, and completed her residency at the University of Texas Health Science Center in San Antonio.

### GENERATIONS OB-GYN GROUP, P.A.

817-684-5200

1615 Hospital Parkway, Suite 310,  
Professional Bldg. 1  
Bedford, Texas 76022  
Gen-OBGyn.com

Dr. Wood is board-certified with a particular interest in minimally-invasive surgeries, hysteroscopic therapy of heavy menses, in-office procedures, abnormal pap smears and all aspects of pregnancy and prenatal care. "I enjoy caring for patients in every stage of life—including teen years, reproductive years and the transition into menopause," Dr. Wood said. Gaining skilled expertise in high-risk pregnancies is something that Dr. Wood is proud of, in addition to routinely caring for women with histories of infertility or those needing careful management during pregnancy. When not in surgery or delivering babies, Dr. Wood enjoys watching her children play soccer, gardening, participating in bible study and exercising.

### MEET DR. KIMBERLY MARSHALL:

She is a graduate of the University of Texas and the University of Texas Southwestern Medical School in Dallas. Dr. Marshall completed her residency at the University Medical

Center Brackenridge in Austin. "I love my job," said Dr. Marshall. "To be able to see a woman through all stages of her life is amazing. I can't imagine doing anything else."

Passionate about offering patients minimally-invasive surgery and treatments, Dr. Marshall is board-certified and one of the few elite surgeons certified in both Single Incision Laparoscopic Surgery (SILStm) and the da Vinci Surgical System. When not seeing patients or delivering babies, you can find Dr. Marshall spending time with her family or on the running trails as she trains for her first marathon this year.

Both doctors are accepting new obstetrical and gynecological patients. If you're searching for an experienced ob-gyn who's compassionate and listens to your concerns, become part of the patient family of Drs. Wood and Marshall.
